Label Mover

One product, two functions

It shifts the label a few millimetres on the liner to make waste matrix removal easier and improve dispensing. It installs on any press without modifying it.

A few millimetres

HOW FAR THE LABEL MOVES

Position adapter

Adjusts the position of the label relative to the liner.

Dual function

MATRIX REMOVAL AND DISPENSING

Idler rollers

Make sure the liner follows the correct path through the press.

No changes

INSTALLS ON THE PRESS AS IT IS

Relaminating roller

Once the label has shifted on the liner, it presses it back down so it doesn't move.

INSTALLED AND RUNNING

From the workshop to the press

Nilpeter FA4 · Mark Andy · Gallus EMS 340 · Gallus ECS 340 · Prati Saturn TE370 · Vinsak USAR 430

INSTALLATION

Fitted without touching the press

It integrates into the equipment without any changes, whatever the manufacturer. No construction work, no adaptations, and no stopping production for longer than necessary.

ADVANTAGES

What matrix removal gains

01

Full integration

It installs on the press without any changes.

02

Fewer errors

It avoids kiss-cutting problems and improves label dispensing.

03

Simple operation

Intuitive and easy for any operator to use.

04

Higher performance

Faster matrix removal, with fewer liner breaks.

NEXT STEP

Tell us about your job

Tell us which press you have, which material you work with and what type of label you produce. We will confirm whether the Label Mover fits and send you a proposal.
